

MASKS ARE REQUIRED IN ALL HEALTHCARE SETTINGS

Healthcare facilities are regulated differently than other businesses.

The State of Washington still requires the use of masks in ALL healthcare facilities.

Thank you for your cooperation.

We look forward to seeing your smiling face soon!

WONDERING WHY WE'RE STILL REQUIRING MASKS?

Washington State has lifted the mask mandate for most public places; however, healthcare facilities are regulated differently than other businesses.

Facilities such as ours must still require the use of appropriate face coverings and social distancing.

Unless you are exempt from the mask mandate for age or documented medical reasons, we must insist that you continue to wear one.

We understand the confusion this may cause, but we thank you for your understanding and cooperation.
